Cryptogram Sampler

16 Funny Quotes as Cryptograms

This free PDF is a sample of a new cryptogram puzzle format I'm developing for Ramona Mona Puzzles.

I'd love to hear what you think! Was solving the puzzles fun? Were the instructions clear? Is there anything you'd change or improve?

Please turn to the last page to see complete details.

How to Solve a Cryptogram

Here's an example to show how a cryptogram can be solved, one clue at a time. The same puzzle is shown at each step, with more letters filled in.

Step 1

Look for short, common words.

The middle word has three letters. A very common three-letter word is **AND**. Let's try it. It fits, so we can fill in those letters.

Q X Z A N D V K R Y B

AND is a common three-letter word. It fits, so we fill in A, N, and D.

Step 2

Use the letters you've found.

Now we know that K = A, Z = N, and L = D. Look for other words that might fit. The first word could be FUN. It fits, so we can fill in those letters.

F U N A N D V K R Y B

The word **FUN** fits, and we fill in F, U, and N.

Step 3

Look for word patterns.

The last word is a five-letter word that starts with G and ends with S. A common word that fits is GAMES. It matches the letters we already have.

F U N A N D G A M E S V K R Y B

The word **GAMES** fits the pattern and uses the letters we already know.

Step 4

Check your work.

All the words make sense, and each cipher letter is used consistently throughout the puzzle. The solved phrase is:

F U N A N D G A M E S V K R Y B

Keep Going!

Each solved letter gives you another clue.

Here's the substitution key for this puzzle, showing which cipher letter maps to each plaintext letter:

Q → F X → U Z → N K → A L → D
V → G R → M Y → E B → S

Keep checking that each cipher letter always maps to the same plaintext letter throughout the puzzle.

Tips for Solving Cryptograms

1. Start with the easiest clues. Look for one-letter words, which are usually A or I. Then examine short words and repeated letters, such as LL, EE, or SS. These patterns can help you recognize possible words.
2. Look for common words. Three-letter words may be THE, AND, YOU, or FOR. Two-letter words may be OF, TO, IN, IS, or IT. Try possibilities that fit the pattern of the encrypted word and the surrounding sentence.
3. Watch for apostrophes. An apostrophe can reveal a contraction or possessive. For example, 'T may appear in CAN'T or DON'T, while 'S may indicate IT'S, HE'S, or possession. Use the other letters to narrow down the possibilities.
4. Use letter patterns and frequency. In English, E, T, A, O, I, and N are among the most common letters. A frequently occurring encrypted letter might represent E, but don't assume it must. Look for familiar patterns such as ING, ED, and TION to help identify possible words.
5. Fill in every matching letter. In a standard cryptogram, each encrypted letter represents the same plaintext letter throughout the puzzle. Whenever you solve a letter, write it above every matching encrypted letter. Remember that different encrypted letters cannot represent the same plaintext letter.
6. Use context to test your guesses. Read the partially solved words and sentence. Does a proposed word make sense? Does it fit every letter you've already identified? If not, reconsider the guess rather than forcing it to fit.

How to Use the Hint Table

Find the row for your letter, then the column for your puzzle.

1

Find the encrypted letter.

Look in the LEFT COLUMN for the letter you want help with.

2

Find your puzzle number.

Move across that row to the number in the TOP ROW.

3

Read the hint.

The cell where the row and column meet contains your hint letter.

Example: Find the hint for K in Puzzle 3

Follow the K row across to column 3. The highlighted cell contains R.

Letter	1	2	3	4	5
A	W	P	C	Y	N
B	F	Z	L	Q	V
C	M	A	T	H	D
D	R	K	X	B	J
E	Y	N	G	S	P
F	C	V	D	M	A
G	T	H	Q	W	L
H	P	S	B	N	X
I	Z	D	Y	F	K
J	L	Q	V	A	M
K	B	X	R	T	G

K row

Puzzle 3 column

**K + Puzzle 3
= R**

This is a made-up sample table for illustration only.

Remember

- The LEFT COLUMN lists A, B, C, D, E, F...
- The TOP ROW lists the puzzle numbers.
- The intersecting cell gives you a hint for that puzzle.

Hints Table

If you need to look up or confirm a letter, or get a clue to help you get going, that's what the Hints Table is for.

You can look up one letter, and get some help without giving away the whole solution.

Instructions are on page 5.

Letter	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16

A Word From Ramona Mona

Hi, I'm Ramona Mona!

I've loved puzzles for longer than I can remember. My mother always carried a puzzle book with her, and when she'd finished the "good" puzzles, she'd pass the

book along to me for the easy ones. Somewhere along the way, I caught the puzzle bug myself. And now I'm hooked!

Growing up, I made word puzzles for Mom and number puzzles for my math class. These days, I especially enjoy easy puzzles that let me relax and have fun without working up a sweat.

My career took me from printing into writing, editing, proofreading, technical writing, coding, and website development. Eventually, all those skills came together in an unexpected way: creating puzzle books of my own.

Now I'm sharing that lifelong love of puzzles with readers like you!

I hope you enjoy these free puzzles. And if you'd like more, come visit me at RamonaMona.com to discover more puzzles made with love, just for you.

Happy puzzling!

~ *Ramona*

Enjoying my puzzles?

If you've enjoyed my published books, I'd be grateful if you'd consider leaving an honest review on Amazon.

Reviews help other puzzle lovers discover my books, too!

Thank you for your support!

Help Shape the Next Ramona Mona Puzzle!

This free PDF is a sample of a new cryptogram puzzle format I'm developing for Ramona Mona Puzzles.

I'd love to hear what you think! Was solving the puzzles fun? Were the instructions clear? Is there anything you'd change or improve?

If you'd like to help me develop this new format, I'd be delighted to hear from you. You can send me your feedback by email or reach out on my Facebook page.
