

Sudoku Puzzles

The objective of Sudoku is to fill the 9×9 grid with the numbers 1–9.

- Each row must contain the numbers 1–9, with no repeats.
- Each column must contain the numbers 1–9, with no repeats.
- Each 3×3 box must contain the numbers 1–9, with no repeats.

Some numbers are already filled in to get you started.

In the example below, question marks show where numbers are missing. Check the other numbers in the same row, column, and 3×3 box to determine which number belongs in each empty cell.

A Word From Ramona

Hi, I'm Ramona Mona!

I've loved puzzles for longer than I can remember. My mother always carried a puzzle book with her, and when she'd finished the "good" puzzles, she'd pass the

book along to me for the easy ones. Somewhere along the way, I caught the puzzle bug myself. And now I'm hooked!

Growing up, I made word puzzles for Mom and number puzzles for my math class. These days, I especially enjoy easy puzzles that let me relax and have fun without working up a sweat.

My career took me from printing into writing, editing, proofreading, technical writing, coding, and website development. Eventually, all those skills came together in an unexpected way: creating puzzle books of my own.

Now I'm sharing that lifelong love of puzzles with readers like you!

I hope you enjoy these free puzzles. And if you'd like more, come visit me at RamonaMona.com to discover more puzzles made with love, just for you.

Happy puzzling!
